

REMARKS

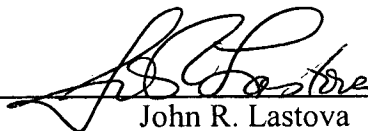

In response to the restriction requirement, Applicants elect species 1 with claims 44-62. Applicants also believe claim 44 is generic. Claims 63, 64, and 77 are amended to depend from claim 44 either directly or indirectly. Generic claim 44 defines the tamper-resistant security device with claim 64 defining a user terminal that uses that tamper-resistant security device and claim 77 a server that interacts with the tamper-resistant security device.

Favorable consideration on the merits is requested.

Respectfully submitted,

NIXON & VANDERHYE P.C.
